

ISLAMIC MICRO FINANCE

Islamic Micro Finance

- Islamic micro finance plays a crucial role in supporting poverty alleviation and ensuring financial inclusion of the less privileged segments of society and, however the sustainability of microfinance institutions (MFIs) is becoming more challenging with the increasing complexity and volatility of the current business landscape. Advancement in digital solutions can enable Islamic micro finance to expedite the digitalization of their operations and expand the reach of their services and impact.
- ETHIX NG offers a wide range of Islamic Financing capabilities that includes supporting Islamic Micro Finance, all fully compliant with the principals of Shariaa.

Discover **ETHIX NG**, the new flagship banking solution that uses AI, Machine learning and Big Data to digitize business processes and elevate banks and Financial institutions to the Digital Age.

Towards a customer-centric business

ETHIX-NG CRM solution helps financial institutions become more customer-centric, helping them to better manage their relationships with customers and business partners by automating manual business processes, enhancing generation of customer-related data, and facilitating effective communications with both current customers and prospects.

Next generation marketing

ETHIX-NG CRM takes marketing campaigns to the next level. Financial institutions can design campaigns and target relevant customers for more successful cross selling and up selling, with detailed performance measures providing valuable customer insights that can inform future marketing decisions. ETHIX-NG allows financial institutions to manage customer activities effectively and efficiently, by booking meetings and appointments that can create new opportunities and lead generation for cross selling and upselling activities.

360 customer view

ETHIX-NG CRM provides a comprehensive dashboard showing all customer's assets and liabilities analysis coupled with product ownership charts, and a drilling capability that allows a deep dive into the customer's deals and position, complaints and profitability – all at the click of a button.

Satisfactory Onboarding Experience

Compliant customer onboarding

ETHIX-NG Customer Management interface is a multi-channel customer on-boarding solution that is intuitive, interactive, and user-friendly. The interface provides online customer opening forms that can be accessed at any time and from any device while remaining fully compliant with regulatory standards such as Blacklist, FATCA, CRS, AML, Risk Rating and Credit Rating.

Intuitive & agile

Designed with a three-decade-long understanding of customer onboarding related challenges, the ETHIX NG Customer Management interface is smart, comprehensive, and simple. Users have the flexibility to complete online applications in one session or save intermittently and come back later for completion. The flexibility of ETHIX NG Customer Management's Configurability provides a future-proof solution that helps financial institutions adapt to a dynamic market and changing customer needs.

Simple and fast

ETHIX-NG easily captures customer data from external sources with automatic data population making the customer onboarding experience faster and easier. The Card Reader can be used with identification documents including CIVIL ID cards, with data auto fetched and pre-filled into the application form reducing the need for additional typing or validation steps. ETHIX-NG also supports multiple biometrics for verification throughout the customer on-boarding journey in addition to allowing digital signature handling to support organisations aiming for a paperless workplace.

Customer satisfaction guaranteed

With improved turnaround times and enhanced services, higher risk tolerance level and de-risking of business processes, ETHIX NG guarantees higher levels of customer satisfaction.

Smarter Credit Decision

Controlling credit risk

ETHIX NG supports banks and financial institutions in managing and controlling credit risk, providing the banks and financial institution with a flexible end-to-end functionality combined with unmatched scalability to reduce risks and minimize human errors. ETHIX-NG's Intelligent Credit Analysis and Facility Granting module, allows banks and financial institutions to control credit risk at all levels. This includes at the point of origination, upon individual account review, at the portfolio level, and also to control operational risk using ETHIX-NG standardized workflow to enforce credit management policies.

Accurate analysis

Financial statement analysis is a key process in Corporate Financing and ETHIX-NG Financial Analyzer provides unmatched flexibility in the ability to define financial spreading ratios and calculations. On the retail side, ETHIX-NG provides a template-based retail credit analysis, and according to the financial institution's needs, a credit analysis template can be designed with the ability to create score cards for different products, define the factors inside the score cards and evaluate the customer automatically.

Robust Collateral Management

ETHIX NG delivers a robust Collateral Management Engine that enables banks and financial institutions to define collateral categories, such as Vehicle, Commodity, Property, Shares, Portfolio, etc. and design the needed input data by collateral category.

Eliminating guess work

ETHIX-NG's Rule Based technology automates processes, including application approvals to create an effortless user experience. Using Industry-leading scoring technologies, ETHIX NG eliminates the guesswork in Financing and credit decisions, even with high-risk clients. Its sophisticated self-learning algorithm supports the credit management operation in making faster and more accurate decisions, while its rule-based credit decisioning reduces the risk of non-repayment. With ETHIX NG automatic or semi-automatic decision making that is made in seconds can ensure the banks and financial institution is working with the right borrowers on the right terms.

Simplifying & automating the credit decision

Banks and financial institutions are faced with increasingly complex credit scenarios with the need to incorporate a variety of risk-related information about their customers. ETHIX-NG provides an integrated and easy-to-use solution built around the unique needs of the credit decision process. ETHIX-NG improves productivity throughout the entire credit lifecycle by centralizing information from many sources and by automating routine tasks. This also substantially reduces paper usage by providing a convenient

Flexible & Automated

The Collateral Management Engine allows banks and financial institutions to create collateral pools and attach the finance/deposit/limits to the collateral pool or attach individually to multiple collaterals with different lending values, supporting the attaching of both cash and non-cash collaterals to the accounts with multi-currency capability. ETHIX NG Collateral Management Engine facilitates the processing and automatic revaluation of collaterals affecting customers' financial statements and position.
